Chuck:

STAT We have just received another request from the Morgan-Schmitt Senate Select Committee on Ethics Subcommittee regarding the SSCI oil study leak. You will recall that did considerable work on this before he left. The Subcommittee is now focusing on the 25 Dec 77 Seymour Hersh article in the New York Times. A copy of that article along with the Subcommittee's latest list of questions is attached.

Please note that the Foreign Economic Policy Subcommittee referred to is a Subcommittee of the Senate Foreign Relations Committee. As I recall, the staff members mentioned in question 1 were Jerome Levinson and Ira Nordlicht.

Could you please look at these questions and provide whatever information you can. My apologies for inflicting this upon you. I will be out Monday and Tuesday. I will be in touch with you later in the week.
